Lead Story

Education Counts

I am "running" for the Town Board as a candidate because I want to contribute to the "well-being" of Pahrump. We have residents that have solutions for "every problem that ails us" but they don't offer solutions because they don't believe one voice will be heard. Unfortunately, the Town Board can't fix what they don't know is broken and can't act on ideas that they haven't heard. I have listened to a number of Pahrump residents and know that they want to be heard by those making the decisions and they want a Town Board working together to solve the issues in their best interests.

Whether I am one of the fortunate THREE who will be seated on the 2011 Town Board or one of the "former" candidates that sit in the audience, I will never forget that we need to voice our opinions in the same "civil" way that we want to be treated. And, we must really listen to each other while remembering that we are all on this ship "called Pahrump" together. If our ship is taking on water, we can "bail" together or sink or swim together. Personally, I prefer to work with all the citizens of Pahrump so our ship can return safely home.

You will "hear" more from me in future weeks on my views and ideas and I hope you will allow me to serve you as a member of the 2011 Town Board.

Newsletter Zinger

"We didn't all come over on the same ship, but we're all in the same boat."

"The greatest need today seems to be the key to fit the deadlock."

"An honest heart prepares one for a clear vision."
